

# SingleUze OPTHALMIC PROCEDURE PACK, UNIVERSAL

## Clear Vision

Ophthalmic surgeons require precision surgical instruments and products for every procedure, whether for cataract removal, corneal graft, retinal detachment or basic eye surgery.

TRESCO's complete range of universal ophthalmic procedure packs keep the surgeon's needs in focus, ensuring the right product combination every time.

## Benefits

Reduced risk of infection. Sterile, prepackaged single-use kit minimizes chance of infection. Potential reduction in malpractice insurance.

## Save Ordering Time

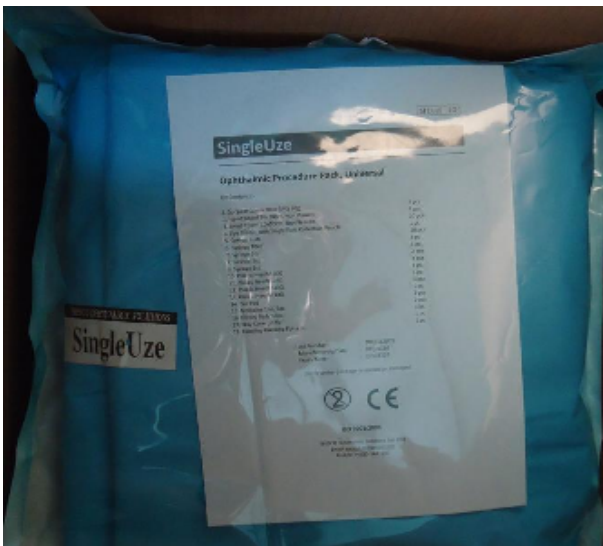

Affordable one-stop quick ordering with everything you need. The most commonly used products are pre-assembled, sterilized, easy to open and ready to use.

## Control Inventory

With only the SingleUze to monitor, keeping track of inventory has never been so easy.

## Save Preparation Time

No more fumbling around trying to locate misplaced needles or cannulas. Everything you need is contained in a seal tight, ready to use packing.
